EXAMINATION FORM

ADNI - Execution Phase (ADNI)

Registry

Participant:  

Visit: Screening

Examiner Initials

Examination Date

Month Day Year

Is this a rescreen?

Answer "Yes" if participant has previously been assigned a different ADNI ID.

☐ Yes  

☐ No

If Yes, what was the participant's initial ID number?

Format: XXX_S_YYYY
ADNI - Execution Phase (ADNI)

Participant Demographic Information

Participant: 

Visit: Screening

Instructions:
At Screening Visit, all questions must be answered. At subsequent visits, this form need only be completed if a change to Participant’s Marital Status, Most recent occupation, or Type of residence has occurred. At that time, only the information that has changed needs to be entered, all other questions may be left blank.

Examiner Initials

Examination Date

Month Day Year

Information Source
☐ Participant Visit
☐ Telephone Call

1. Participant Gender
☐ Male
☐ Female

2. Participant Date of Birth

Month Day Year

3. Participant Handedness
☐ Right
☐ Left

4. Participant Marital Status
☐ Married
☐ Widowed
☐ Divorced
☐ Never married
☐ Unknown

5. Participant Education

NOTE: Refer to the Procedures Manual for instructions on reporting years of education.

If less than 6 years...

5a. Does the participant have a work history sufficient to exclude mental retardation?

NOTE: If No, the participant must be excluded from the study.

☐ Yes
☐ No

6. Participant Occupation

6a. Primary occupation during most of adult life

6b. Most recent occupation

7. Participant Retired?

☐ Yes
☐ No

Retirement Date

Month Day Year
8. Type of Participant residence
   ☐ House
   ☐ Condo/Co-op (owned)
   ☐ Apartment (rented)
   ☐ Mobile Home
   ☐ Retirement Community
   ☐ Assisted Living
   ☐ Skilled Nursing Facility
   ☐ Other (specify)
   If Other, specify:

9. Language to be used for testing the Participant
   NOTE: Only one may be checked and must remain same throughout study.
   ☐ English
   ☐ Spanish

10. Participant's Primary Language
    ☐ English
    ☐ Spanish
    ☐ Other (specify)
    If Other, specify:

11. Year of onset of Alzheimer's disease symptoms (best estimate)
    NOTE: Field is not applicable for MCI and NL participants.

12. Ethnic Category
    ☐ Hispanic or Latino
    ☐ Not Hispanic or Latino
    ☐ Unknown

13. Racial Categories
    ☐ American Indian or Alaskan Native
    ☐ Asian
    ☐ Native Hawaiian or Other Pacific Islander
    ☐ Black or African American
    ☐ White
    ☐ More than one race
    ☐ Unknown
Instructions:
Ask the participant and study partner about the presence of dementia and Alzheimer's disease for the following biological (blood) relatives. Dementia should be indicated if a relative has a history of senility or progressive memory problems over time. If the participant has siblings, answer "Yes" to question #3 and click the "Details" button to provide information about his/her history of dementia.

NOTE: Alzheimer's Disease should only be answered when Dementia is answered "Yes."

**INSTRUCTIONS:** At screening, list all medications (prescription and over-the-counter, including vitamins and herbal supplements) taken within the past three months. All conditions requiring medications should be listed on the Medical History. If medication will be continued past the screening date, check the "Continuing past screening" box. Update the form at every visit. If medication continues at the end of the protocol or Treatment Discontinuation Visit, check the "Continuing at end of study" box.

**No medication 3 months prior to the screening visit**
INSTRUCTIONS:

Indicate whether or not the subject has a clinically significant history of problems in any of the areas listed below. If YES, indicate whether the problem is CURRENT and give details, including the best estimate of date. If CURRENT, indicate whether the problem is STABLE. If the subject is CURRENT and does not currently take medication for a condition, the condition should be recorded below and both YES and CURRENT boxes should be checked. If the problem is CURRENT and the subject is currently taking medication for a condition, the condition should be recorded below and both YES and CURRENT boxes should be checked.

Clinician's Signature:_________________________ Date:__________________
Baseline Symptoms Checklist was conducted only at the baseline visit to obtain a ‘baseline’ set of symptoms as being present or absent in order to have a benchmark to assess for potential adverse events at subsequent visits.

Diagnosis and Symptoms Checklist was conducted at all subsequent visits (and the list of symptoms/questions are identical to the Baseline Symptoms Checklist). If a new symptom was present (not noted at baseline on the Baseline Symptoms Checklist) OR if the condition noted at baseline had worsen in chronicity or severity it was to be documented as an adverse event.
Instructions:
Considering the preceding three months, check “Absent” or “Present” for each symptom listed below. If “Present,” click the “Details” button and provide the required information on the Documentation of Baseline Symptoms Log.

If a diagnosis is made between screen and baseline, the diagnosis should be documented under question #28 (Other) and entered in the Documentation of Baseline Symptoms Log. Do not check symptoms associated with the diagnosis.

### Documentation of Baseline Diagnoses and Symptoms Log

**Instructions:**
At Baseline, record all symptoms marked Present on the Baseline Diagnoses and Symptoms Checklist. At subsequent visits, the subject should be queried about the status of each symptom. All new symptoms, or baseline symptoms that have worsened in chronicity or severity, must be recorded on an Adverse Events case report form.

ApoE Genotyping - Draw Data

Visit: Screening

Instructions:
Blood drawn for APOE genotyping must be received by the UPenn Biomarker repository within 24 hours of collection. The sample must be maintained at room temperature and shipped by Federal Express - Priority Overnight to UPENN at ambient temperature.

NOTE: If blood is draw on Friday, be sure to check "Saturday Delivery" on the FedEx form and apply orange "Saturday Delivery" labels to the package.

Please refer to the Procedures Manual for more detailed instructions.

This form must be completed ASAP once the FedEx information is available so that the UPENN lab can be notified of the shipment.

Biomarker Samples

Participant: [Participant ID]

Visit: Baseline

Instructions:
Begin by printing out a PDF of the online Biomarker Samples Form and completing the Sample Identification Labels. The bar code label must be placed on the transfer tube prior to freezing.

Fluids should be collected in the following order:
* Biomarker plain red-top tubes (2 blood collection tubes)
* Biomarker lavender-top (2 blood collection tubes)
* Urine collection container
* CSF Collection (if applicable)

Complete the Biomarker Samples Form online before shipping samples. Print a PDF of the completed form and include a copy with the shipment. FedEX all biomarker samples the SAME DAY on DRY ICE.

Please refer to the Procedures Manual for more detailed instructions.

This form must be completed ASAP once the FedEx information is available so that the UPENN lab can be notified of the shipment.

Which of the following was collected at this visit?
☐ Blood
☐ Urine
☐ CSF
☐ None

If CSF collected, please answer the following:

Needle Used:
☐ Sprotte
☐ Sharp

Method of Collection:
☐ gravity
☐ syringe suction

Overnight fast from midnight?
☐ Yes
☐ No

The exact date and time entered below must be noted on the specimen labels.

**Diagnosis Summary and Diagnosis Summary – Baseline Changes Forms**

**Diagnosis at Screening**
There are four key inclusion criteria that define the control, MCI and AD cohorts: presence of a memory complaint, delayed logical memory recall score (education adjusted cut off scores), Mini Mental State Exam score and Clinical Dementia Rating. Based on the values of these key variables and associated cut off scores, the diagnostic status is determined. *The screening diagnosis is captured in the ARM table.*

**Diagnosis Assessment and Conversion**
The study clinician is responsible for assessing diagnostic status at the initial baseline visit and is based on his/her clinical judgment. There are no cut off scores associated with delayed logical memory recall, clinical dementia rating etc. that are required per diagnosis. The baseline diagnostic status is documented in the Diagnosis Summary Worksheet / eCRF *(which may differ from the diagnosis status at screening captured in the ARM table).*

- ADNI 1 the table name is PDXCONV – Diagnostic Summary
  Field is DXCURREN – Current diagnosis?

The study clinician is responsible to re-assess diagnostic status at each in-clinic study visit and determine if a conversion or reversion to a new diagnostic category has occurred via the Diagnosis Summary Worksheet / eCRF.

- ADNI 1 the table name is PDXCONV– Diagnostic Summary
  Field DXCONV - Has there been a conversion or reversion to NL/MCI?
  Field DXCONTYP - If YES - CONVERSION, choose type
  Field DXREV - If YES - REVERSION, choose type

Documentation to show support of conversion / reversion / or No Change is through the Diagnosis Summary – Baseline Changes Worksheet / eCRF

- ADNI 1 the table name is BLCHANGE – Diagnostic Summary-Baseline Changes

**NOTE:** At the baseline visit only questions 13, 14, and 15 on the Diagnosis Summary-Baseline Changes form are administered. Questions 1-12 ask about change in performance on MMSE, ADAS etc. that do not apply at baseline. All subsequent visits after baseline, questions 1-15 are administered.
Instructions:
This form should be completed by a physician at every in-clinic visit to confirm the participant's current diagnosis and whether a conversion has occurred.

Physician Initials

1. Current Diagnosis
- [ ] NL
- [ ] MCI
- [ ] AD

2. Has there been a conversion or reversion to NL/MCI?
- [ ] Yes - Conversion
- [ ] Yes - Reversion
- [ ] No

   If YES - CONVERSION, choose type
   - [ ] Normal Control to MCI
   - [ ] Normal Control to AD
   - [ ] MCI to AD

   If YES - REVERSION, choose type
   - [ ] MCI to Normal Control
   - [ ] AD to MCI
   - [ ] AD to Normal Control

3. Physician Diagnosis
   - [ ] Normal
   - [ ] Yes
   - [ ] Mild Depression
   - [ ] Yes
   - [ ] Mild Cognitive Impairment
   - [ ] Yes

      If Mild Cognitive Impairment, select any that apply:
      - [ ] MCI (Memory features)
      - [ ] MCI (Non-memory features)

Petersen Criteria:
1. Subjective memory complaint
   - [ ] Yes
   - [ ] No

2. Informant memory complaint
   - [ ] Yes
   - [ ] No
3. Normal general cognitive function
   - Yes
   - No
   - Marginal

4. Normal activities of daily living
   - Yes
   - No
   - Marginal

5. Objective memory impairment for age and education
   - Yes
   - No

6. Not demented by diagnostic criteria
   - Yes
   - No

If MCI
   - MCI due to Alzheimer's Disease
   - MCI due to other etiology

If MCI due to other etiology, select box(es) to indicate reason:
   - Frontal Lobe Dementia
   - Parkinson's Disease
   - Huntington's Disease
   - Progressive Supranuclear Palsy
   - Corticobasal Degeneration
   - Vascular Dementia
   - Prion-Associated Dementia
   - Other (specify)

Other (specify)

Alzheimer's Disease
   - Yes

If Alzheimer's Disease, select box that indicates best description:
   - Mild
   - Moderate
   - Severe

If Alzheimer's Disease
   - Probable
   - Possible

If Probable AD, select box(es) for other symptoms present:
   - None
   - Stroke(s)
   - Depression
   - Delirium
   - Parkinsonism
   - Metabolic/Toxic Disorder (specify)
   - Other (specify)

Metabolic/Toxic Disorder (specify)
ADNI - Execution Phase (ADNI)

Diagnostic Summary

Visit: Month 6

Other (specify)

If Possible AD, select box(es) to indicate reason:
- Atypical clinical course or features (specify)
- Stroke(s)
- Depression
- Delirium
- Parkinsonism
- Metabolic / Toxic Disorder (specify)
- Other (specify)

Atypical clinical course or features (specify)

Metabolic / Toxic Disorder (specify)

Other (specify)

Parkinsonism
- Yes

If Parkinsonism, select box which indicates best diagnosis:
- Parkinsonism without cognitive impairment
- Parkinsonism with cognitive impairment, not demented
- Parkinsonism with cognitive impairment, demented
- Atypical Parkinsonism

If Parkinsonism with cognitive impairment, demented
- PD
- PDD
- DLB
- PDAD

If Atypical Parkinsonism
- PSP
- CBGD
- OPCA
- SND
- Shy Drager
- Vascular
- Other (specify)

Other (specify)

Other Dementia (not Alzheimer's Disease)
- Yes
ADNI - Execution Phase (ADNI)

Diagnostic Summary

Participant: [Participant ID]

Visit: Month 6

If Other Dementia, select box which indicates best diagnosis:
- Frontal
- Huntington
- Alcohol
- NPH
- Major Depression
- Down's Syndrome
- Vascular Dementia
- Prion
- HIV
- Primary Progressive Aphasia
- Posterior Cortical Dysfunction
- Other (specify)
- Other (specify)

Physician Confidence in Diagnosis:
- Uncertain
- Mildly Confident
- Moderately Confident
- Highly Confident
Instructions:
This form should be completed by a physician at every in-clinic visit to confirm the participant’s current diagnosis and indicate whether a conversion has occurred. Please use the narrative summary field to provide any other information used to support the diagnosis.

Pre-visit Diagnosis
☐ NL
☐ MCI
☐ AD

1. Clinically relevant worsening on ADAS?
   ☐ Yes
   ☐ No

2. Clinically relevant worsening on MMSE?
   ☐ Yes
   ☐ No

3. Clinically relevant worsening on MMSE recall?
   ☐ Yes
   ☐ No

4. Clinically relevant worsening on non-memory MMSE items?
   ☐ Yes
   ☐ No

5. Clinically relevant worsening in memory on neuropsych testing?
   ☐ Yes
   ☐ No

6. Clinically relevant impairment/worsening in non-memory cognitive domains on neuropsych testing?
   ☐ Yes
   ☐ No

7. Clinically relevant worsening in activities of daily living (FAQ)?
   ☐ Yes
   ☐ No

8. Clinically relevant deterioration on CDR Sum of Boxes or Overall CDR rating?
   ☐ Yes
   ☐ No

9. Clinically relevant depression based on clinical judgement or GDS?
   ☐ Yes
   ☐ No

10. Did subject have a stroke?
    ☐ Yes
    ☐ No
11. Is there evidence of a delirium (medication effect, toxic or metabolic encephalopathy)?
   - Yes
   - No

12. Has extenuating circumstance (such as a physical health problem, change in residence, charge in support network, death of a family member, etc.) contributed to a change in the subject’s cognitive or functional performance?
   - Yes
   - No
   - If yes, describe:

13. Is the change in clinical status corroborated by informant report of changes in ADL?
   - Yes
   - No
   - NA/No change in clinical status

14. Is the change in clinical status corroborated by informant report of changes in cognition?
   - Yes
   - No
   - NA/No change in clinical status

# Clinical Dementia Rating

## Screening Visit

<table>
<thead>
<tr>
<th>Score</th>
<th>Healthy CDR 0</th>
<th>Questionable Dementia CDR 0.5</th>
<th>Mild Dementia CDR 1</th>
<th>Moderate Dementia CDR 2</th>
<th>Severe Dementia CDR 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>MEMORY</td>
<td>No memory loss or slight inconsistent forgetfulness</td>
<td>Consistent slight forgetfulness; partial recollection of events; “benign” forgetfulness</td>
<td>Moderate memory loss; more marked for recent events; defect interferes with everyday activities</td>
<td>Severe memory loss; only highly learned material retained; new material rapidly lost</td>
<td>Severe memory loss, only fragments remain</td>
</tr>
<tr>
<td>ORIENTATION</td>
<td>Fully oriented</td>
<td>Fully oriented except for slight difficulty with time relationships</td>
<td>Moderate difficulty with time relationships; oriented for place at examination; may have geographic disorientation elsewhere</td>
<td>Severe difficulty with time relationships; usually disoriented in time, often to place</td>
<td>Oriented to person only</td>
</tr>
<tr>
<td>JUDGMENT AND PROBLEM SOLVING</td>
<td>Solves everyday problems and business &amp; financial affairs well; judgment good in relation to past performance</td>
<td>Slight impairment in solving problems, similarities, differences</td>
<td>Moderate difficulty in handling problems, similarities, differences; social judgment usually maintained</td>
<td>Severely impaired in handling problems, similarities, differences; social judgment usually impaired</td>
<td>Unable to make judgments or solve problems</td>
</tr>
<tr>
<td>COMMUNITY AFFAIRS</td>
<td>Independent function at usual level in job, shopping, volunteer and social groups</td>
<td>Slight impairment in these activities</td>
<td>Unable to function independently at these activities though may still be engaged in some; appears normal to casual inspection</td>
<td>No pretense of independent function outside home</td>
<td>Appears well enough to be taken to functions outside a family home</td>
</tr>
<tr>
<td>HOME AND HOBBIES</td>
<td>Life at home, hobbies, intellectual interests well maintained</td>
<td>Life at home, hobbies, intellectual interests slightly impaired</td>
<td>Mild but definite impairment of function at home; more difficult chores abandoned; more complicated hobbies and interests abandoned</td>
<td>Only simple chores preserved; very restricted interests, poorly maintained</td>
<td>No significant function in home</td>
</tr>
<tr>
<td>PERSONAL CARE</td>
<td>Fully capable of self care</td>
<td></td>
<td>Needs prompting</td>
<td>Requires assistance in dressing, hygiene, keeping of personal effects</td>
<td>Requires much help with personal care; frequent incontinence</td>
</tr>
</tbody>
</table>

**INSTRUCTIONS:** Score only as decline from previous usual level due to cognitive loss, not impairment due to other factors.

**Score:**

- **Sum of Boxes**
- **Global CDR**

**Scoring**

See procedures manual for scoring instructions.
Clinical Dementia Rating Worksheet

This is a semi-structured interview. Please ask all of these questions. Ask any additional questions necessary to determine the subject’s CDR. Please record information from the additional questions.

Memory Questions for Study Partner:

1. Does he/she have a problem with his/her memory or thinking? □ Yes □ No
2. Can he/she recall recent events? □ Usually □ Sometimes □ Rarely
3. Can he/she remember a short list of items (shopping)? □ Usually □ Sometimes □ Rarely
4. Has there been some decline in memory during the past year? □ Yes □ No
5. Is his/her memory impaired to such a degree that it would have interfered with his/her activities of daily life a few years ago (or pre-retirement activities)? (Collateral sources opinion) □ Yes □ No
6. Does he/she completely forget a major event (e.g., trip, party, family wedding) within a few weeks of the event? □ Usually □ Sometimes □ Rarely
7. Does he/she forget pertinent details of the major event? □ Usually □ Sometimes □ Rarely
8. Does he/she completely forget important information of the distant past (e.g., birthdate, wedding date, place of employment)? □ Usually □ Sometimes □ Rarely
9. Tell me about some recent event in his/her life that he/she should remember. (For later testing, obtain details such as location of the event, time of day, participants, how long the event was, when it ended and how the subject or other participants got there.)
   Within 1 week: __________________________________________________________________________
   ____________________________________________________________________________________
   ____________________________________________________________________________________
   Within 1 month: ______________________________________________________________________
   ____________________________________________________________________________________
   ____________________________________________________________________________________

10. When was he/she born? ___________________________________________________________________

11. Where was he/she born? __________________________________________________________________

12. What was the last school he/she attended?
   Name _________________________________________________________________________________
   Place _________________________________________________________________________________
   Grade _________________________________________________________________________________

13. What was his/her main occupation/job (or spouse’s job if subject was not employed)? ______________

14. What was his/her last major job (or spouse’s job if subject was not employed)? _________________

15. When did he/she (or spouse) retire and why? _______________________________________________
Clinical Dementia Rating Worksheet

Orientation Questions for Study Partner:

How often does he/she know of the exact:

1. Date of the month?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know

2. Month?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know

3. Year?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know

4. Day of the Week?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know

5. Does he/she have difficulty with time relationships (when events happened in relation to each other)?
   - Rarely
   - Sometimes
   - Usually
   - Don’t Know

6. Can he/she find his/her way about familiar streets?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know

7. How often does he/she know how to get from one place to another outside his/her neighborhood?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know

8. How often can he/she find his/her way about indoors?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know
Clinical Dementia Rating Worksheet

Judgment and Problem Solving Questions for Study Partner:

1. In general, if you had to rate his/her abilities to solve problems at the present time, would you consider them:
   - As good as they have ever been
   - Good, but not as good as before
   - Fair
   - Poor
   - No ability at all

2. Rate his/her ability to cope with small sums of money (e.g., make change, leave a small tip):
   - No Loss
   - Some Loss
   - Severe Loss

3. Rate his/her ability to handle complicated financial or business transactions (e.g., balance checkbook, pay bills):
   - No Loss
   - Some Loss
   - Severe Loss

4. Can he/she handle a household emergency (e.g., plumbing leak, small fire)?
   - As well as before
   - Worse than before because of trouble thinking
   - Worse than before, another reason (why) __________________________________________________
   - __________________________________________________

5. Can he/she understand situations or explanations?
   - Usually
   - Sometimes
   - Rarely
   - Don’t Know

6. Does he/she behave* appropriately (i.e., in his/her usual [pre-morbid] manner) in social situations and interactions with other people?
   - Rarely
   - Sometimes
   - Usually
   - Don’t Know

*This item rates behavior, not appearance
Clinical Dementia Rating Worksheet

Community Affairs Questions for Study Partner:

**Occupational**

1. Is the subject still working? [ ] Yes [ ] No [ ] N/A
   - If not applicable, proceed to item 4
   - If yes, proceed to item 3
   - If no, proceed to item 2

2. Did memory or thinking problems contribute to the subject’s decision to retire? (Question 4 is next) [ ] Yes [ ] No [ ] DK

3. Does the subject have significant difficulty in his/her job because of problems with memory or thinking?
   - [ ] Rarely or Never
   - [ ] Sometimes
   - [ ] Usually
   - [ ] Don’t Know

**Social**

4. Did he/she ever drive a car? [ ] Yes [ ] No
   - Does the subject drive a car now? [ ] Yes [ ] No
   - If no, is this because of memory or thinking problems? [ ] Yes [ ] No

5. If he/she is still driving, are there problems or risks because of poor thinking? [ ] Yes [ ] No

*6. Is he/she able to independently shop for needs? [ ] Yes [ ] No
   - [ ] Rarely or Never
     (Needs to be accompanied on any shopping trip)
   - [ ] Sometimes
     (Shops for limited number of items; buys duplicate items or forgets needed items)
   - [ ] Usually
   - [ ] Don’t Know

7. Is he/she able to independently carry out activities outside the home?
   - [ ] Rarely or Never
     (Generally unable to perform activities without help)
   - [ ] Sometimes
     (Limited and/or routine, e.g., superficial participation in church or meetings; trips to beauty parlor)
   - [ ] Usually
     (Meaningful participation in activities, e.g., voting)
   - [ ] Don’t Know

8. Is he/she taken to social functions outside a family home? [ ] Yes [ ] No
   - If no, why not? ________________________________________________

9. Would a casual observer of the subject’s behavior think the subject was ill? [ ] Yes [ ] No

10. If in nursing home, does he/she participate well in social functions (thinking)? [ ] Yes [ ] No

**IMPORTANT:**
Is there enough information to rate the subject’s level of impairment in community affairs?
If not, please probe further.

Community Affairs: Such as going to church, visiting friends and family, political activities, professional organizations such as bar association, other professional groups, social clubs, service organizations, educational programs.

*Please add notes if needed to clarify subject’s level of functioning in this area.
Clinical Dementia Rating Worksheet

Home and Hobbies Questions for Study Partner:

1a. What changes have occurred in his/her abilities to perform household chores?

_____________________________________________________________________________________

1b. What can he/she still do well?

_____________________________________________________________________________________

2a. What changes have occurred in his/her ability to perform hobbies?

_____________________________________________________________________________________

2b. What can he/she still do well?

_____________________________________________________________________________________

3. If in nursing home, what can he/she no longer do well (H and H)?

_____________________________________________________________________________________

Everyday Activities (Blessed):

4. Ability to perform household tasks

<table>
<thead>
<tr>
<th>No Loss</th>
<th>0.5</th>
<th>Severe Loss</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Please describe: __________________________________________________________

__________________________________________________________________________

5. Is he/she able to perform household chores at the level of:
(Pick one. Study Partner does not need to be asked directly)

☐ No meaningful function.
   (Performs simple activities, such as making a bed, only with much supervision)

☐ Functions in limited activities only.
   (With some supervision, washes dishes with acceptable cleanliness; sets table)

☐ Functions independently in some activities.
   (Operates appliances, such as a vacuum cleaner; prepares simple meals)

☐ Functions in usual activities but not at usual level.

☐ Normal function in usual activities.

IMPORTANT:
Is there enough information to rate the subject’s level of impairment in HOME & HOBBIES?
If not, please probe further.

Homemaking Tasks: Such as cooking, laundry, cleaning, grocery shopping, taking out garbage, yard work, simple care maintenance, and basic home repair.

Hobbies: Sewing, painting, handicrafts, reading, entertaining, photography, gardening, going to theater or symphony, _ woodworking, participation in sports.
Clinical Dementia Rating Worksheet

Personal Care Questions for Study Partner:

*What is your estimate of his/her mental ability in the following areas:

<table>
<thead>
<tr>
<th></th>
<th>Unaided</th>
<th>Occasionally misplaced buttons, etc.</th>
<th>Wrong sequence commonly forgotten items</th>
<th>Unable to dress</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Dressing (Blessed)</td>
<td>0</td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Unaided</td>
<td>Needs prompting</td>
<td>Sometimes needs help</td>
<td>Always or nearly always needs help</td>
</tr>
<tr>
<td>B. Washing, grooming</td>
<td>0</td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Cleanly; proper utensils</td>
<td>Messily; spoon</td>
<td>Simple solids</td>
<td>Has to be fed completely</td>
</tr>
<tr>
<td>C. Eating habits</td>
<td>0</td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Normal complete control</td>
<td>Occasionally wets bed</td>
<td>Frequently wets bed</td>
<td>Doubly incontinent</td>
</tr>
<tr>
<td>D. Sphincter control (Blessed)</td>
<td>0</td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
</tbody>
</table>

*A box score of 1 can be considered if the subject’s personal care is impaired from a previous level, even if they do not receive prompting.*
Clinical Dementia Rating Worksheet

Memory Questions for Subject:

1. Do you have problems with memory or thinking? □ Yes □ No

2. A few moments ago, your (spouse, etc.) told me a few recent experiences you had. Will you tell me something about those? (Prompt for details, if needed, such as location of the event, time of day, participants, how long the event was, when it ended and how the subject or other participants got there.)

   Within 1 week
   1.0 - Largely correct
   0.5
   0.0 - Largely incorrect

   Within 1 month
   1.0 - Largely correct
   0.5
   0.0 - Largely incorrect

3. I will give you a name and address to remember for a few minutes. Repeat this name and address after me: (Repeat until the phrase is correctly repeated or to a maximum of three trials.)

   Elements 1 2 3 4 5
   John Brown, 42 Market Street, Chicago
   John Brown, 42 Market Street, Chicago
   John Brown, 42 Market Street, Chicago

   (Underline elements repeated correctly in each trial)

4. When were you born?

5. Where were you born?

6. What was the last school you attended?
   Name
   Place ___________________________ Grade ________________

7. What was your main occupation/job (or spouse if not employed)?

8. What was your last major job (or spouse if not employed)?

9. When did you (or spouse) retire and why?

10. Repeat the name and address I asked you to remember:

   Elements 1 2 3 4 5
   John Brown, 42 Market Street, Chicago

   (Underline elements repeated correctly in each trial.)
Clinical Dementia Rating Worksheet

Orientation Questions for Subject:

Record the subject’s answer verbatim for each question:

1. What is the date today?
   _______________________________________________________
   □ Correct □ Incorrect

2. What day of the week is it?
   _______________________________________________________
   □ Correct □ Incorrect

3. What is the month?
   _______________________________________________________
   □ Correct □ Incorrect

4. What is the year?
   _______________________________________________________
   □ Correct □ Incorrect

5. What is the name of this place?
   _______________________________________________________
   □ Correct □ Incorrect

6. What town or city are we in?
   _______________________________________________________
   □ Correct □ Incorrect

7. What time is it?
   _______________________________________________________
   □ Correct □ Incorrect

8. Does the subject know who the study partner is (in your judgement)?
   _______________________________________________________
   □ Correct □ Incorrect
Clinical Dementia Rating Worksheet

Judgment and Problem Solving Questions for Subject:

Instructions: If initial response by subject does not merit a score of 0, press the matter to identify the subject’s best understanding of the problem. Circle nearest response.

Similarities:

Example: “How are a pencil and pen alike?” (writing instruments)

“How are these things alike?” Subject’s response

1. turnip......cauliflower ____________________________
   (0 = vegetables)
   (1 = edible foods, living things, can be cooked, etc.)
   (2 = answers not pertinent; differences; buy item)

2. desk.......bookcase ____________________________
   (0 = furniture, office furniture, both hold books)
   (1 = wooden, legs)
   (2 = not pertinent; differences; buy item)

Differences:

Example: “What is the difference between sugar and vinegar?” (sweet vs. sour)

“What is the difference between these things?” Subject’s response

3. lie.......mistake ____________________________
   (0 = one deliberate, one unintentional)
   (1 = one bad the other good - or explains only one)
   (2 = anything else, similarities)

4. river.......canal ____________________________
   (0 = natural - artificial)
   (2 = anything else)

Calculations:

Subject’s response

5. How many nickels in a dollar? ____________________________
   □ Correct □ Incorrect

6. How many quarters in $6.75? ____________________________
   □ Correct □ Incorrect

7. Subtract 3 from 20 and keep subtracting 3 from each new number all the way down.
   ____________________________
   □ Correct □ Incorrect

Judgment:

8. Upon arriving in a strange city, how would you locate a friend that you wished to see?
   0 = try the telephone book, city directory, go to the courthouse for a directory; call a mutual friend
   1 = call the police, call operator (usually will not give address)
   2 = no clear response

9. Subject’s assessment of disability and station in life and understanding of why he/she is present at the examination (may have covered, but rate here):
   □ Good Insight □ Partial Insight □ Little Insight
Geriatric Depression Scale

Participant: [Participant ID]

Visit: Screening

Instructions:
Instruct the subject: "In the next part of this interview, I will ask you questions about your feelings. Some of the questions I will ask you may not apply, and some may make you feel uncomfortable. For each question, please answer "yes" or "no," depending on how you have been feeling in the past week, including today."

Check here if:
☐ Participant is unable to complete the GDS, based on the clinician's best judgement.

If unable, explain:

1. Are you basically satisfied with your life?
   ☐ Yes(0)
   ☐ No(1)

2. Have you dropped many of your activities and interests?
   ☐ Yes(1)
   ☐ No(0)

3. Do you feel that your life is empty?
   ☐ Yes(1)
   ☐ No(0)

4. Do you often get bored?
   ☐ Yes(1)
   ☐ No(0)

5. Are you in good spirits most of the time?
   ☐ Yes(0)
   ☐ No(1)

6. Are you afraid that something bad is going to happen to you?
   ☐ Yes(1)
   ☐ No(0)

7. Do you feel happy most of the time?
   ☐ Yes(0)
   ☐ No(1)

8. Do you often feel helpless?
   ☐ Yes(1)
   ☐ No(0)

9. Do you prefer to stay at home, rather than going out and doing new things?
   ☐ Yes(1)
   ☐ No(0)
10. Do you feel you have more problems with memory than most?
   ☐ Yes(1)
   ☐ No(0)

11. Do you think it's wonderful to be alive now?
   ☐ Yes(0)
   ☐ No(1)

12. Do you feel pretty worthless the way you are now?
   ☐ Yes(1)
   ☐ No(0)

13. Do you feel full of energy?
   ☐ Yes(0)
   ☐ No(1)

14. Do you feel that your situation is hopeless?
   ☐ Yes(1)
   ☐ No(0)

15. Do you think that most people are better off than you are?
   ☐ Yes(1)
   ☐ No(0)

Total Score
Instructions:
For each question, use the participant's name where (P) appears.
Ask the participant's Study Partner to indicate whether any of
the (P)'s behaviors listed below occurred during the previous
four weeks. If so, use the following rating scales to rate the
severity of the behavior.

A. DELUSIONS
Does (P) believe that others are stealing from him/her, or planning to harm
him/her in some way?
☐ No
☐ Yes
☐ N/A
Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

B. HALLUCINATIONS
Does (P) act as if he/she hears voices? Does he/she talk to people who are
not there?
☐ No
☐ Yes
☐ N/A
Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

C. AGITATION/AGGRESSION
Is (P) stubborn and resistive to help from others?
☐ No
☐ Yes
☐ N/A
Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

D. DEPRESSION/DYSPHORIA
Does (P) act as if he/she is sad or in low spirits? Does he/she cry?
☐ No
☐ Yes
☐ N/A

Visit: Baseline

Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

E. ANXIETY
Does {P} become upset when separated from you? Does he/she have any other signs of nervousness, such as shortness of breath, sighing, being unable to relax, or feeling excessively tense?
☐ No
☐ Yes
☐ N/A

Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

F. ELATION/EUPHORIA
Does {P} appear to feel too good or act excessively happy?
☐ No
☐ Yes
☐ N/A

Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

G. APATHY/INDIFFERENCE
Does {P} seem less interested in his/her usual activities and in the activities and plans of others?
☐ No
☐ Yes
☐ N/A

Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

H. DISINHIBITION
Does {P} seem to act impulsively? For example, does {P} talk to strangers as if he/she knows them, or does {P} say things that may hurt people's feelings?
☐ No
☐ Yes
☐ N/A

Severity Ratings
☐ 1 - Mild (noticeable, but not a significant change).
☐ 2 - Moderate (significant, but not a dramatic change).
☐ 3 - Severe (very marked or prominent. A dramatic change).

I. IRRITABILITY/LABILITY
Is (P) impatient or cranky? Does he/she have difficulty coping with delays or waiting for planned activities?
- No
- Yes
- N/A

Severity Ratings
- 1 - Mild (noticeable, but not a significant change).
- 2 - Moderate (significant, but not a dramatic change).
- 3 - Severe (very marked or prominent. A dramatic change).

J. ABERRANT MOTOR BEHAVIOR
Does (P) engage in repetitive activities, such as pacing around the house, handling buttons, wrapping strings, or doing other things repeatedly?
- No
- Yes
- N/A

Severity Ratings
- 1 - Mild (noticeable, but not a significant change).
- 2 - Moderate (significant, but not a dramatic change).
- 3 - Severe (very marked or prominent. A dramatic change).

K. SLEEP
Does (P) awaken you during the night, rise too early in the morning, or take excessive naps during the day?
- No
- Yes
- N/A

Severity Ratings
- 1 - Mild (noticeable, but not a significant change).
- 2 - Moderate (significant, but not a dramatic change).
- 3 - Severe (very marked or prominent. A dramatic change).

L. APPETITE AND EATING DISORDERS
Has (P) lost or gained weight, or had a change in the food he/she likes?
- No
- Yes
- N/A

Severity Ratings
- 1 - Mild (noticeable, but not a significant change).
- 2 - Moderate (significant, but not a dramatic change).
- 3 - Severe (very marked or prominent. A dramatic change).

1. Have the participant and study partner signed the Informed Consent form?
   - Yes
   - No
   If Yes, date signed
   Month Day Year

Check the following to indicate the participant is suitable for and consents to:
   - 1.5 Tesla MRI
   - PET Scan
   - 3 Tesla MRI
   - Lumbar Puncture

2. NL - Is participant free of memory complaints, verified by an informant, aside from those normal
   with age? MCI - Does the subject have memory complaints and memory difficulties that are verified by
   an informant? AD - Does the subject have memory complaints that are verified by an informant?
   - Yes
   - No

3. NL - Normal memory function documented by scoring at specific cutoffs on the Logical Memory II subscale
   (delayed Paragraph Recall) from the Wechsler Memory Scaled - Revised (the maximum score is 25)
   MCI/AD - Abnormal memory function documented by scoring below the education adjusted cutoff on the Logical
   Memory II subscale (Delayed Paragraph Recall) from the Wechsler Memory Scale - Revised (the maximum
   score is 25)
   - Yes
   - No

4. NL/MCI - Does the participant have Mini-Mental State Exam score between 24 and 30 (inclusive)? (Exceptions
   must be made for subjects with less than 8 years of education at the discretion of the project director)
   AD - Does the participant have an MMSE score between 20 and 26 (inclusive)?
   - Yes
   - No

5. NL - Does the participant have a Clinical Dementia Rating of 0? Memory Box score must be 0.
   MCI - Does the participant have a Clinical Dementia Rating of 0.5? Memory Box score must be at least 0.5.
   AD - Does participant have a Clinical Dementia rating of 0.5 or 1.0?
   - Yes
   - No
ADNI - Execution Phase (ADNI)

**Inclusion Criteria**

Participant:  
Visit: Screening

6. NL - Is the participant cognitively normal based on an absence of significant impairment in cognitive functions or activities of daily living? MCI - Is the participant's general cognition and functional performance sufficiently preserved such that a diagnosis of Alzheimer's disease cannot be made by the site physician at the time of the screening visit? AD - Does the participant meet NINCDS/ADRDA criteria for probable AD?
- ☐ Yes
- ☐ No

7. Does the participant have a Modified Hachinski score less than or equal to 4?
- ☐ Yes
- ☐ No

8. Is the participant between 55 and 90 years of age inclusive?
- ☐ Yes
- ☐ No

9. Has the participant been on stable doses of non-excluded medications for at least 4 weeks prior to screening?
- ☐ Yes
- ☐ No

10. Does the participant have a Geriatric Depression Scale score of <6?
- ☐ Yes
- ☐ No

11. Does the participant have an informant available who they have frequent contact with (e.g. an average of 10 hours per week or more), and can accompany the participant to all clinic visits and imaging sessions for the duration of the protocol?
- ☐ Yes
- ☐ No

12. Does the participant have adequate visual and auditory acuity to allow neuropsychological testing?
- ☐ Yes
- ☐ No

13. Is the participant in good general health with no additional diseases expected to interfere with the study?
- ☐ Yes
- ☐ No

14. If female, is the participant not pregnant, lactating, or of childbearing potential (i.e. women must be two years post-menopausal or surgically sterile)?
- ☐ Yes
- ☐ No
- ☐ N/A

15. NL/MCI - Is the participant willing and able to complete all Baseline assessment and participate in a 3-year protocol? AD - Is the participant willing and able to ...2-year protocol?
- ☐ Yes
- ☐ No

16. Is the participant willing to undergo MRI 1.5 Tesla neuroimaging (PET and MRI 3 Tesla are optional) and provide DNA for ApoE assessments and banking as well as plasma samples at protocol specified time points?
- ☐ Yes
- ☐ No
17. Has the participant completed 6 grades of education (or had a good work history sufficient to exclude mental retardation)?
   - Yes
   - No

18. Is the participant fluent in English or Spanish?
   - Yes
   - No

19. Is the participant physically acceptable for this study as confirmed by the:
   19a. Medical History
       - Yes
       - No
   19b. Physical Examination?
       Must be answered "No" if any Screening Vital Signs are missing.
       - Yes
       - No
   19c. Neurological Examination?
       - Yes
       - No
   19d. Laboratory Tests?
       - Yes
       - No
ADNI - Execution Phase (ADNI)

Exclusion Criteria

Participant: ______________________

Visit: Screening

Participant ID

Instructions:
If the answer to any question 1-11 is YES, the participant MAY
NOT be enrolled in the study without an exception from the Project
Director.

Refer to the Procedures Manual for instructions on requesting
an exception.

Examiner Initials

Date Criteria Confirmed

Month  Day  Year

1. NL - Does the participant have a significant neurologic disease such as Parkinson's disease, multi-infarct
dementia, Huntington's disease, normal pressure hydrocephalus, brain tumor, progressive supranuclear
palsy, seizure disorder, subdural hematoma, multiple sclerosis, or history of significant head trauma
followed by persistent neurologic defaults or known structural brain abnormalities.MCI - Does the participant
have a significant neurologic disease other than suspected incipient Alzheimer's disease such as...AD
- Does the participant have a significant neurologic disease other than Alzheimer's disease including...

☐ Yes
☐ No

2. Does the participant's screening/baseline MRI scans have evidence of infection, infarction, or other
focal lesions? Participants with multiple lacunes or lacunes in a critical memory structure are excluded.

This item should be left unanswered until after the Screening MRI scan has been conducted.

☐ Yes
☐ No

3. Does the participant have a pacemaker, aneurysm clips, artificial heart valves, ear implants, metal
fragments or foreign objects in the eyes, skin or body.

☐ Yes
☐ No

4. NL - Has the participant had major depression or bipolar disorder as described in DSM-IV within the
past year or a history of schizophrenia (DSM IV criteria)?MCI/AD - Does the participant have a history
of major depression...or a history of psychotic features, agitation, or behavioral problems within the
last 3 months which could lead to difficulty complying with the protocol?

☐ Yes
☐ No

5. Does the participant have a history of alcohol or substance abuse or dependence within the past 2
years (DSM IV criteria)?

☐ Yes
☐ No

6. Does the participant have a significant systemic illness or unstable medical condition which could
lead to difficulty complying with the protocol?

☐ Yes
☐ No
7. Does the participant have any clinically significant abnormalities in B12, RPR, or TFTs that might interfere with the study?
   - Yes
   - No

8. Does the participant reside in a skilled nursing facility?
   - Yes
   - No

9. Is the participant currently taking, or has he/she taken in the last 4 weeks, any excluded medication(s) as described in the Procedures Manual?
   - Yes
   - No

10. Has the participant used another investigational agent within one month prior to screening?
    - Yes
    - No

11. Is the participant participating in a clinical study involving neuropsychological measures being collected more than one time per year?
    - Yes
    - No
ADNI - Execution Phase (ADNI)
Eligibility Confirmation

Participant: [Participant ID]

Visit: Screening

Examiner Initials

Date Eligibility Confirmed

Month Day Year

Status of participant at this visit (check one):

☐ Participant eligible for protocol, ready for monitor approval and randomization
☐ Participant excluded from protocol

Reason participant excluded from protocol:

Clinician's Signature: ________________________________ Date: ________________
ADNI - Execution Phase (ADNI)
Early Discontinuation and Withdrawal

Visit: Month 24

Examiner Initials

Date of Discontinuation/Withdrawal

Month Day Year

1. Is this a Full or Partial Withdrawal?
   - Full
   - Partial

If Partial, what is the participant withdrawing from?
   - NOTE: If the participant wishes to withdraw from in-clinic visits, Full Withdrawal should be completed. PIB subjects withdrawing from PET must also withdraw from PIB.
   - 1.5 T MRI
   - 3.0 T MRI
   - PET
   - Lumbar Puncture
   - PIB

Reason for Withdrawal
   - Adverse Event
   - Death
   - Safety Risk
   - Protocol Violation
   - Non-Compliance
   - Investigator Judgment
   - Consent Withdrawn
   - Study Terminated
   - Loss of Study Partner
   - Lost to Follow-Up
   - Coordinating Center Request

Please provide any additional information regarding the withdrawal. If individual procedures are being discontinued for different reasons, please provide an explanation.

2. Follow-up: (check all that apply)

   - NOTE: If the participant agrees to an unscheduled visit, complete an exception log request.
   - Agrees to return for all follow-up visits.
   - Agrees to return for final visit.
   - Agrees to unscheduled visit.
   - Refuses/unable to return for any future visits.
