ADNI at the ADCS

- Anthony Gamst
- Sarah Walter
- Monica Chu
- Michael Donohue
- Elizabeth Shaffer
- Debbie Stice
- Kristin Woods
- Jeremy Pizzola
- Debbie Tobias
- Jackie Bochenek

et al ...

ADCS ADNI activities

- Dynamic randomization routines
- Clinical Data Management System
 - evolving CRFs for add-ons
- General support: internal and external requests
 - HelpDesk (1651 queries, some with >20 issues)
- QC of all non-imaging data (recruitment, data entry, data upload)
- Support international efforts (data systems, assessments): eg, J-ADNI

ADCS ADNI activities

- Tracking reports
 - Build, maintain and update online, PDF and email reports
 - Dynamic online reports
- Memos and newsletters
- Development and maintenance of public website
- Development, maintenance and posting of ADNI documents
- Financial management, site payments

Moving forward to ADNI II

- ADCS roles continue, with ongoing improvements to QC, tracking, reporting etc.
- Linkage/cross-talk with clinical trials programs
 - ADNI methods used in ADCS trials
 - ADCS longitudinal change benchmarks for ADNI
- Consider utilizing novel ADCS instruments currently in testing (eg, tracking cognitive/clinical change in normals and mildly impaired; home-based assessments)
