

MEMORANDUM
ADNI COORDINATING CENTER
Alzheimer's Disease Cooperative Study
adcs-clinops@ucsd.edu
Fax: (858) 246-1415

Date: August 22, 2014
To: ADNI Investigators, ADNI Cores and Data Users
From: ADCS Clinical Operations
Re: **ADNI and ADNI-GO Data Portals Closed**

Dear ADNI Cores and Data Users,

The ADNI and ADNI-GO clinical data portals were closed **August 18, 2014**. The clinical dataset and scans available on LONI are now final for these two protocols.

Please note that the data locks are not irrevocable. It remains possible that circumstances will arise that will warrant re-opening the datasets in the future to make additions or changes. Sites should contact the ADCS if any new ADNI1 or ADNIGO data is identified.

ADNI2 images and data will be collected and updated until the end of that study (approximately 4 years).

Thank you,

ADCS Clinical Operations
